JOB ADVERT – Workshop Technician

Hourly Rate: £9.50/hr

Closing Date: Friday 9th July

Practical Interview Date: Week commencing 12th July

Period of Employment: 6 months

Contracted Hours: Flexible schedule to be set with the team. 28 hours/week, Monday to Friday and occasionally available evenings and weekends for events and potential for overtime.

Precious Plastic Lancaster (PPL) aims to raise the value of plastic by using plastic waste to make new and long-lasting beautiful products. We are excited to offer the opportunity for someone to join our production team. We are seeking someone with a practical background who can manage the day-to-day running of the workshop, manufacturing product, meeting deadlines and ensuring nothing goes to waste. Opportunity to grow into a full time, longer term role.

Main responsibilities:

1. Manage orders and manufacturing of products ensuring they are made to quality standard and within deadlines.
2. Inspect and maintain the workshop, tools and machines as set out in the maintenance schedule.
3. Create and keep up to date order schedules, standard operating procedures, maintenance schedules and manuals for tools and machines.
4. Research and develop ways of working with plastic and documenting these methods for use in PPL's product offerings.
5. Work with other workshop staff, interns and volunteers.
6. Support public outreach of Precious Plastic Lancaster.
7. Represent Precious Plastic Lancaster at events and meetings.

PRECIOUS PLASTIC LANCASTER C.I.C.
Registered company no. 11852592

Essential Skills:

1. Experience with one or more of the following: Plastic working, woodworking, metalworking, or knowledge of and comfort using power tools.
2. Able to work unsupervised
3. Reliable, organised and can work to tight deadlines
4. Good communication & people skills
5. Tool maintenance and basic engineering skills

Desirable Skills:

1. Experience working as part of, or managing, a team of staff and/or volunteers
2. Use of CAD software
3. Product or documentary photography
4. Social media content creation and marketing
5. Report writing and documentation
6. Use of Microsoft Office, particularly Excel.
7. Database management

About You:

You will be motivated and safety conscious. Comfortable with strenuous, repetitive, fast-paced work with attention to quality. We are building a sustainable business, striving for creative problem solving, open communication, and a circular economy mindset.

To Apply:

Please provide a cover letter explaining why you would like to get involved with PPL and how you are suited to the role, alongside an up to date CV.
